DETAILED ACTION

Rejections Maintained

1. Claims 1-3 are rejected under 35 U.S.C. 103(a) as being obvious over Kondo (6403215) in view of Murata (2001/0055678) for reasons of record made in the last Office Action of November 10, 2005.
2. Claim 4 is rejected under 35 U.S.C. 103(a) as being obvious over Kondo in view of Murata, Carfagna (6779976) and Dreher (3342325) for reasons of record made in the last Office Action of November 10, 2005..

Response to Arguments

3. Applicant's arguments filed April 20, 2006 have been fully considered but they are not persuasive.

Applicant argues that there is not motivation to combine Murata and Kondo references because the adhesive are different in the two references. This is not deemed to be convincing because both Kondo and Murata are directed to pressure sensitive adhesive (PSA). The adhesive force of the PSA of Kondo is decreased by means of heating, while the adhesive force of the PSA of Murata is decreased by an energy beam, the emission of which would provide the heat. Hence, the adhesives forces for both the adhesives are decreased by heat (direct heating or indirect heating by energy beam).

In response to applicant's argument that the present claimed invention is directed to a dust cleaner having tackiness, applicant is directed to the last Office Action, page-4, wherein it has been explained tha the preamble phrase has not been given any

patentable weight because the portion of the claim following the preamble is a self-contained description of the structure not depending for completeness upon the preamble introductory clause.

With regards to Carfagna and Dreher references, the above explanations apply *a fortiori* herein.

Thus, in the absence of any evidence to the contrary, it remains the examiner's position that the claimed invention is obvious over the prior art of record discussed above.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
